

Introducing our **NEW SHARPER** Medelec Elite Disposable Concentric Needle Electrodes

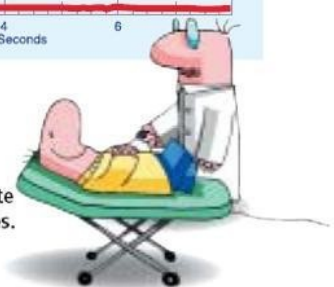

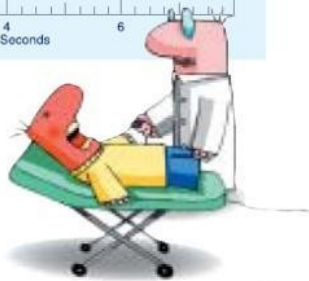

We have combined our expertise with the knowledge and experience of our valued customers world wide and developed a NEW SHARPER Medelec Elite disposable concentric needle which represents the most advanced product of its kind. See the graphs below to see for yourself the improvement in the insertion/penetration force.

Graph A* shows the insertion/penetration force of a competitor needle.

Graph B* shows the considerable reduction in the insertion/penetration force when using our **NEW SHARPER** Medelec Elite disposable concentric needles.
