## **EMG Technologist**

Our **Oakville site** has a **part-time (0.4 FTE)** opportunity in Neurophysiology – Diagnostic Imaging. As an EMG Technologist, you will perform standard and complex Electromyography testing / recordings in accordance with the standards set by the Association of Electromyography Technologists of Canada and the College of Physicians & Surgeons of Ontario, as well as Halton Healthcare Services Principles of Care Delivery, and Policies & Procedures with Physician Specialists. While hours are primarily Thursday and Friday (0800-1600), they may change to meet operational requirements.

### **The qualifications of the EMG Technologist include:**

- Current registration with the Association of Electromyography Technologists of Canada ( AETC )
- At least 1 year of recent experience in an EMG Laboratory
- Familiarity with routine EMG equipment, maintenance and supplies
- Ability to work effectively as a collaborative member of a team
- Ability to read, write, speak and understand English fluently
- Ability to meet the physical demands of the position.

An innovative, growing organization with three progressive community hospitals, Halton Healthcare provides quality health services to more than 275,000 Halton residents.

If you are interested in a challenging career with growth potential and support in enhancing your work-life balance, please check our website at [www.haltonhealthcareers.ca](http://www.haltonhealthcareers.ca) for full position details and to apply.
