

EEG Technologist II

Requisition #: 409681

Location: Grande Prairie, Alberta

Employee Class: Regular Full-Time

Rate of Pay: \$36.81 - \$47.30 per hour

The EEG Department at the Queen Elizabeth II Hospital is looking for an ambitious and patient-focused EEG Technologist to join the team and collaborate in the expansion and enhancement of the program for current and future needs. As the only EEG Technologist II in the North Zone, there is potential to grow and expand the program zone-wide, as well as with the new regional hospital in Grande Prairie is slated to open in the next couple of years. This is a rewarding opportunity to work to your full scope of practice while working to improve the services offered to Albertans.

As our new EEG Technologist II, you will perform an accurate range of electrophysiological testing in an efficient and professional manner which could include EEG and sleep deprived EEG. Our EEG Technologist II works collaboratively with members of an integrated multidisciplinary healthcare team, utilizing the principles of patient- and family-centered care in meeting the diagnostic needs of this patient population. Your participation in regular continuing competency activities will aid in your success in this role as we begin to expand and enhance the program. On occasion, you may help us to grow the future workforce of Alberta by participating in training of student technologists by ensuring goals and objectives are met, and you may be required to act as a resource and contact for technologists and students.

The pride you take in your work will be shown with your responsibility for observing and following all safety measures, ensuring supplies and equipment are ordered, and ensuring the laboratory is kept in a clean and tidy condition.

Location:

Grande Prairie is a growing city with over 65,000 residents and serves approximately 260,000 people in the trading area with involvement in the oil & gas industry, as well as agriculture, forestry, retail, manufacturing and tourism industries. Grande Prairie has something for everyone, offering both outdoor and indoor recreation opportunities at the numerous parks and golf courses, in addition to a state of the art recreation facility. The city boasts a vibrant arts and culture community with an art gallery, multiple museums, and live theatre, complimented with many dining and shopping opportunities you would expect to find in a large urban setting.

Benefits:

We provide a comprehensive benefits plan to enhance the health and well-being of our employees and their families. This includes (but is not limited to) health, dental, vision, disability and lifestyle considerations. Visit Alberta Health Services' website to view an overview of the benefits plan.

In addition to a competitive rate of pay, Alberta Health Services currently has a Remote Retention Allowance in place to an annual maximum of \$3,000. This allowance is non-pensionable and is payable on an hourly basis for all hours paid at the basic rate of pay.

Qualifications:

- Minimum of 1 year of experience required, 2 years' experience preferred
- Registered or eligible for registration with the Canadian Board of Registration of Electroencephalograph Technologists (CBRET) as an EEG Technologist
- Registered or eligible for registration with the Alberta College of Medical Diagnostic & Therapeutic Technologists (ACMDTT)
- Basic Cardiac Life Support - Health Care Provider (BCLS-HCP) certification required
- Ability to work unsupervised
- Previous supervisory experience an asset
- Knowledge of equipment operation and maintenance
- Basic computer skills
- Effective communication and interpersonal skills with patients, their families and other staff
- Ability to work collaboratively on a multidisciplinary team
- Ability to be flexible in dealing with changing/unpredictable situations
- Ability to exercise initiative and good judgement
- Understanding of a Patient- and Family-Centered Care delivery model
