What is it really like to live, work and play in Saskatchewan? The short answer is, it's awesome!

There are wide open spaces, employment and lifestyle opportunities for both you and your family and warm, friendly people who live in a number of different communities and cities, both rural and urban. With so much space and a diverse and growing population this means shorter commute times, which means more time to spend with your friends and family.

Saskatchewan's low cost of living is also the envy of many other provinces. These benefits and opportunities – all combined – make Saskatchewan one of the best places in the world to live. We could go on and on about how great it is to live here, but don't take our word for it. See for yourself.

The wage range for this position is \$38.89 – 41.65. The Saskatchewan Health Authority offers a very comprehensive benefits package and relocation assistance of up to \$3000 for eligible expenses. Contact us for details!
