

Electroneurophysiology Technologist

Horizon Health Network in beautiful New Brunswick is looking for Electroneurophysiology Technologists to join our team.

This is the life-changing opportunity you've been looking for.

Horizon Health Network (Horizon) is actively recruiting **Electroneurophysiology Technologists** interested in joining our team in **Fredericton, and Moncton, New Brunswick.**

In this role, you will be critical in Horizon's ability to provide exceptional care. You will contribute to the overall wellbeing and quality of life of individual patients and New Brunswickers.

Horizon Health Network can offer **full-time, permanent** employment with a **competitive salary.**

Who we are

Horizon is Atlantic Canada's second largest health authority servicing over a half a million people. We operate 12 hospitals and more than 100 medical facilities, health care centres, clinics, and offices throughout New Brunswick.

Our people are the heart of our organization. We have more than 14,000 dedicated employees working with over 1,000 physicians, and play a major role in research, education, innovation and health and wellness.

Horizon was named one of Canada's 'Top 40 Research Hospitals' in 2020, solidifying our status among the country's top health research institutions, and we are home to the Dalhousie Medicine New Brunswick and Memorial University's clerkship programs, located in Saint John and delivered in Fredericton, Miramichi, Moncton, and Waterville. We also partner with several local, national, and international universities, colleges, and academies.

Why you should work here

Working for Horizon gives you flexibility in your career, an east coast lifestyle and the chance to make a big difference in the lives of New Brunswickers.

Horizon is an equal opportunity employer that values and recognizes your contributions, is dedicated to patient safety and satisfaction, benefits, and offers many opportunities for professional growth.

As a Horizon employee, you will benefit from engagement programs like *Years of Service* and our *Bravo!* recognition programs. You will also see a commitment to your well-being through our safe and respectful workplace programs that include safety initiatives, workplace violence prevention, and employee wellness services.

Your Qualifications:

- Completion of a recognized course for Electroneurophysiology Technologists.
- Must be a member of the Canadian Association of Electroneurophysiology Technologists.
- Must be registered with the Canadian Board of Registration of Electroencephalography Technologists.
- Written and spoken competence in English is required.

Key Responsibilities:

- Preparing patients for E.E.G. and/or E.M.G procedures
- Preparing and operating equipment
- Screening tests and preparing reports for physicians
- Cleaning, inspecting, troubleshooting and maintaining equipment
- Maintaining clinical records and documentation
- Monitoring patients interoperatively
- Providing mentoring and support for technicians and other health care professionals
